PROFILE SUMMARY

A motivated and detail-oriented Data Analyst fresher with a strong foundation in SQL, Python, Excel, Power BI, and Tableau. Passionate about transforming raw data into meaningful insights through data analysis, visualization, and reporting.

TECHNICAL SKILLS

- SQL
- Python
- Microsoft Excel
- Power BI
- Tableau

CORE COMPETENCIES

- Data Analysis
- Data Visualization
- Dashboard Development
- Problem Solving

INTERNSHIP

Data Analyst Intern (Ongoing)

Judah Code Technologies | Jul 2026 – Present

- Cleaned and analyzed datasets using SQL and Microsoft Excel.
- Developed interactive dashboards in Power BI for business reporting.
- Assisted in data preprocessing, validation and report generation.

PROFESSIONAL EXPERIENCE

Assistant Professor

Shri Sakthikailassh Women's College

September 2024 – October 2025

- Delivered lectures and guided undergraduate students in computer science-related subjects.
- Prepared lesson plans, assignments, and assessments to support student learning.
- Evaluated student performance and provided academic guidance.
- Maintained academic records and coordinated with faculty members.
- Developed strong communication, presentation, problem-solving and time management skills.

PROJECTS

Crop Yield Prediction using Machine Learning(Python)

Tools: Python, Pandas, Scikit-learn, Matplotlib

- Built predictive models using Python.
- Performed data preprocessing and visualization.
- Achieved high prediction accuracy using Random Forest.

Online Food Delivery Analysis using SQL

Tools: SQL, MySQL Workbench

- Analyzed customer orders and restaurant performance using SQL.
- Wrote queries using JOINS, GROUP BY, ORDER BY, and aggregate functions.
- Generated insights on sales trends, customer behavior and top-performing restaurants.

Employee Performance & Attrition Analysis using Excel

Tools: Microsoft Excel, Pivot Tables, Pivot Charts, Conditional Formatting

- Cleaned and organized HR employee data in Microsoft Excel.
- Analyzed employee attrition trends using Pivot Tables and Pivot Charts.
- Generated insights to support employee retention and performance analysis.

Customer Purchase Behavior Analysis(Python)

Tools: Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook

- Cleaned and preprocessed customer purchase data using Python.
- Performed exploratory data analysis (EDA) to identify purchasing patterns and trends.
- Generated actionable insights to support business decisions and development to customer spot.

EDUCATION

M.Sc. Data Science

Shri Sarada College for Women, Salem

Periyar University

2022–2024

CGPA: 7.9/10

B.Sc. Computer Science

Shri sakthikailassh Women's college, Salem

Periyar University

2019–2022

CGPA: 8.1/10

LANGUAGES

- English
- Tamil
